Our college is well-known for providing educational facilities to the undergraduate level to the masses who were economically backward and socially downtrodden, particularly tribal students from western zone of Sakri Tehsil. More than 85% tribal people live in this area which is far away from the main stream of the society. Previously there were no facilities for higher education to the students of this region and they had to go to Sakri or Dhule for higher education, which was not at all feasible and affordable for common man.
