Feedback Analysis and Action Taken Report 2020-21:

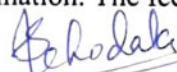

Analysis of Feedback on online examination from the Students:

The college adhere to University curriculum and strike to deliver the curriculum to the students effectively. Every year our college collects feedback on curriculum from various stakeholders such as students, teachers, parents, alumni through offline Questionnaires feedback form devised by college IQAC. But during the COVID-19 lockdown period, students and teachers were very worried about the examination. These examinations were conducted through online mode as per the instructions of the Government, UGC and the University. Students had to face many problems during these examinations. Accordingly, the college has collected feedback from the students regarding the online examination by asking following simple questions.

- How many papers you have given by online mode?
- How many times you have faced difficulty in logging for examination?
- Place from which students have appeared for exam?
- What are the problems and how they overcome the internet connectivity?
- How the College had respond you in your difficult situation?
- How was online mode of examination?

Action Taken:

Observations / Suggestions made by the students are discussed in the online staff meeting. The collected feedback may helpful for planning and implementation of conducting online examination. As per the University guideline Principal of the college had appointed coordinator, 5 member committee, & established a war room for online examination. The feedback report are also submitted to University authority.
